

Data Breach Protection and Response Service for the Auto Industry

Help protect your dealership from the risks and expenses of data breaches and identity theft with breach monitoring, employee identity theft protection, and included breach response and victim notification and recovery services.

ABOUT PRIVACYSMAXX

Founded in 2005, PrivacyMaxx is the leading identity theft and data breach solutions provider dedicated to identity protection and privacy management services.

Our certified identity theft risk management specialists and expert technology teams provide turn-key and custom identity theft and data breach protection programs for the auto industry.

Our Data Breach Protection and Response Service helps dealers avoid the high costs and uncertainty of responding to a data breach by including free and discounted post-breach response and victim notification services in all packages.

PROTECT YOUR BUSINESS FROM DATA BREACH EXPENSES AND RISK
